

Bulk Product Purchase policy:

In some markets, Synergy WorldWide provides Team Members with the option to purchase certain products in bulk, at a discounted price.

Team Members may only order bulk packs if they have an active qualifying auto-ship template. Bulk purchases may not be used as Activation Orders.

If a qualifying auto-ship order for a month is skipped or cancelled, the Team Member must wait until they have three (3) consecutive months of qualifying auto-ship orders before ordering bulk packs again.

If a Team Member wishes to place a bulk pack on an account other than his or her own, both accounts must have an active qualifying auto-ship template and three (3) consecutive months of qualifying auto-ship orders.

Team Members may only order a maximum of 1,000 CV of bulk packs in a month.

Team Members must obtain written approval from the applicable market General Manager or Director of sales for any exceptions.

Team Members must fill out the Bulk Pack Agreement and submit it to Customer Service before ordering bulk packs.

Team Members must keep detailed records of his or her bulk pack purchases and detailed retail receipts from all subsequent sales of the products purchased in bulk.

Team Members shall provide Synergy with such records and receipts along with a general accounting of how he or she is selling the bulk packs upon request of Synergy.
