

Each product is also formulated with Synergy Venom Technology using a revolutionary new ingredient that mimics the activity of Temple Viper snake venom and is heralded as an effective alternative to existing cosmetic treatment procedures.

Synergy Venom Technology targets skin's expression-related activity to reduce the appearance of frown lines, laugh lines and crow's feet caused by repeated facial muscle contraction. This technology, along with other powerful active ingredients in the TriAction™ Skin Solutions System, begins working immediately and continues working over time to restore and maintain skin's youthful appearance.

About Synergy WorldWide

Synergy WorldWide, led by Founder and CEO Dan Higginson, is a world leader in health and anti-aging products. The highly capable team of executives has more than 70 years of combined experience in the network marketing industry and the determination it takes to achieve success in this industry.

Since Synergy was founded in 1999, it has established a proven track record of success in markets around the world. Synergy WorldWide is a division of Nature's Sunshine Products (NSP), a respected debt-free company with more than 35 years in the herbal-health industry.

TriAction™
SKIN SOLUTIONS SYSTEM

SYNERGY WORLDWIDE

Over time, the natural aging process and environment take a toll on your skin. Fight back with advanced science found in the TriAction™ Skin Solutions System. Featuring Synergy Venom Technology, TriAction™ integrates three products that perform three key actions within the skin to attack the visible signs of aging fast and achieve lasting results.

Action	Method
FILL	Micro-filling spheres penetrate the epidermis, re-hydrate with skin's natural moisture, swelling and filling in lines and wrinkles.
FIRM	Bio-mimetic ingredients stimulate the production of collagen and elastin and reorganize these fibers to re-densify the dermis.
RELAX	Neuro-cosmetic ingredients target receptor sites deep within the skin to dramatically reduce the appearance of expression related lines and wrinkles.

TriAction Skin Serum

targets expression related lines and wrinkles to achieve a smooth, even skin surface. Skin looks and feels younger and healthier

TriAction Eye Concentrate

targets all visible signs of aging around the eye area to achieve a beautiful, contoured appearance. Crow's feet seem to vanish, firmness is restored, under eye dark circles fade away and puffiness diminishes.

TriAction Skin Complex

targets noticeable aging in multiple skin layers with instant and continuous effects to achieve a lifted, firm appearance. As resiliency is enhanced and firmness is improved, skin gets a boost of youthful radiance.
