

## Become a master builder. Earn cash along the way.

In 2014, Synergy’s Activity Bonus Program allows Team Members to earn 2 monthly cash bonuses while establishing a strong foundation for long-term residual income.

### PERSONAL ACTIVITY BONUS (PAB)

Simply sponsor 2 new Team Members and 2 new customers in a month to earn a PAB. The bonus increases with each consecutive month you accomplish this goal.

#### Earn a monthly PAB when you:

1. Sponsor one or more new Team Members with a total of 300 or more activation CV.
2. Sponsor two or more new customers with a cumulative total of 200 or more customer CV.
3. You are on Autoship (minimum 100 CV).

*Note: Only one PAB can be earned each month. See reverse for examples.*

Consecutive Month	Personal Activity Bonus
1	\$50
2	\$100
3	\$150
4	\$200
5	\$250
6	\$300
7	\$400
8	\$500

### DUPLICATION ACTIVITY BONUS (DAB)

This is where the big money comes into play! Earn \$ each time your personally sponsored Team Members earn their own PAB. The more people you help succeed, the more you earn – up to \$2,000 per month!

#### Earn a monthly DAB when:

1. You have earned a PAB yourself for that month.
2. A Team Member you have sponsored within the promotion period also earns a PAB.

Personally Sponsored TM's with PAB	1	2	3	4	5	6	7	8
Duplication Bonus	\$125	\$250	\$500	\$750	\$1000	\$1200	\$1400	\$2000

*Note: The Activity Bonus is only applicable for Team Members and customer enrollments in North America. New Team Members are defined as those who are sponsored during the promotion period, **February-September 2014**. A “new customer” is defined as a customer whose first purchase from Synergy WorldWide occurred during the promotional period.*

## Examples:

### PERSONAL ACTIVITY BONUS (PAB)

#### Example 1

In March John sponsors 1 new Team Member at 300 CV and 2 new customers (1 at 50 CV and 1 at 150 CV). This is John's second consecutive month fulfilling the PAB requirements. John has earned a \$100 PAB bonus.

#### Example 2

In February Samantha sponsors 2 new Team Members, each at 150 CV and 2 new customers, each at 100 CV. Samantha has fulfilled the PAB requirements and has earned her first PAB of \$50. She does the same in March, April, and May — earning \$100, \$150, \$200 in each respective month. In June, Samantha does not fulfill the PAB requirements. As a result, she will start from the beginning and earn a \$50 PAB in July if she meets the requirements.

#### Example 3

In April Chris sponsors 1 new Team Member at 300 CV and 1 new customer at 200 CV. In order to qualify for the PAB, Chris must sponsor 2 or more customers with a cumulative CV of 200 or more. Chris has not met the customer qualification portion of this bonus and therefore will not earn a PAB.

### DUPLICATION ACTIVITY BONUS (DAB)

#### Example 1

In March Jennifer has earned her second straight PAB and has helped her two new Team Members from February earn their own PAB. As a result Jennifer will earn a \$250 DAB for the month of March, bringing her total Activity Bonus to \$350 (\$100 PAB + \$250 DAB) for the month of March.

#### Example 2

In May Eric has earned his very first PAB of \$50. In addition, he was able to help one of those new Team Members do the same thing in that very month. As a result, Eric has also earned a DAB of \$125.

#### Example 3

It's the last month of the promotion and Steve has maximized the Activity Bonus Program since February. He's earned a PAB each month, in fact he just earned \$400 in PAB in August and a DAB of \$2,000 for helping 8 of his new Team Members since February do the same. In September, he powers through and finds two new solid Team Members and sponsors 4 new customers, each at 50 CV. Doing so earns him a \$500 PAB. Not only that, but he helps 6 of his new Team Members since February earn a PAB as well — resulting in a DAB of \$1,200. Steve's grand total in Activity Bonus for the month of September is \$1,700 (\$500 PAB + \$1,200 DAB).
